

# Happy Funtime Karaoke User Manual

## Introduction

This Karaoke Management Application has two platforms: a desktop application and a mobile application. For the mobile application, there are two user types: 'Karaoke Manager' and 'Karaoke Singer'. This user manual will methodically step through every use-case for both platforms and both user types.

## System Requirements

### Karaoke Manager:

- **Required:**
  - Desktop with basic browser capabilities
  - Internet access
- **Optional:**
  - Android Smartphone with an OS API level of 23 or higher
  - Internet access
  - 225 MB of free space

### Karaoke Singer:

- **Required:**
  - Android Smartphone with an OS API level of 23 or higher
  - Internet access
  - 225 MB of free space

## Step-by-Step Instructions

### Website

#### **Karaoke Manager:**

The website is navigable through several tabs displayed at the top of the page.

#### Creating Account:

1. Click on the Create Account Tab.
2. Fill out the information in each field.
3. Click the checkbox if you are registering as a DJ.
4. Click the Create Account button to submit the request.

#### Uploading Songs:

\*Note: Songs can only be uploaded when you are logged in as a DJ\*

1. Click the Upload Songs tab
2. Click the Upload Songlist button in the top left of the page.
3. Click browse and select the songlist CSV File
  - a. \*\*\*Only CSV files are accepted\*\*\*
4. Click the upload button to upload the songlist with your DJ ID.

Upload Songlist

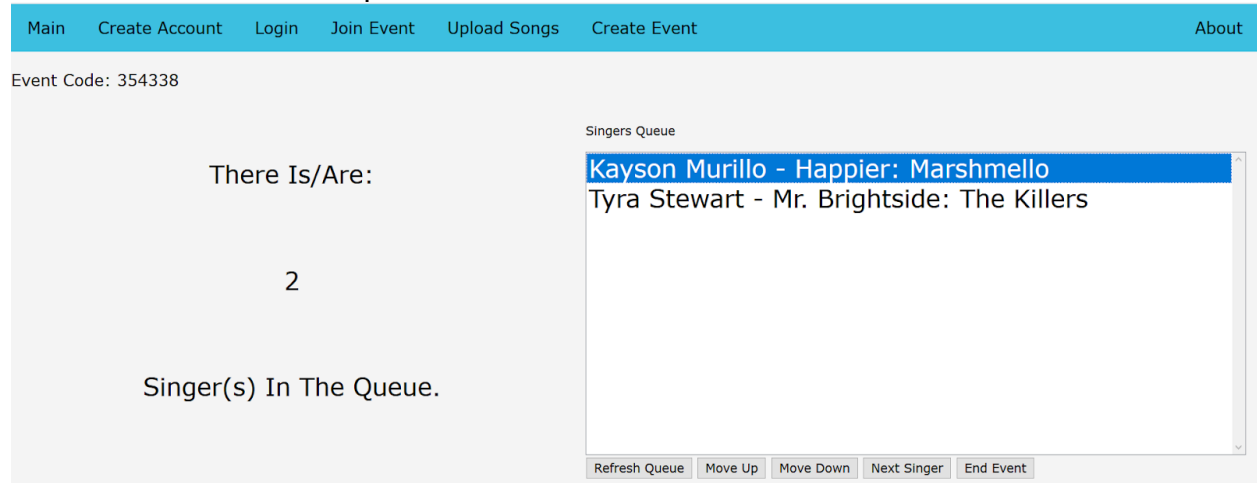

[Browse...](#) testsongs.csv [Upload](#)

title	artist	dj_id
Bad Liar	Imagine Dragons	57
Sweet but Psycho	Ava Max	57
Better	Khalid	57
When the Party's Over	Billie Eilish	57
Empty Space	James Arthur	57
This Feeling	The Chainsmokers	57

#### Managing Event:

1. To begin an event click on the Create Event tab
2. When the event is created the event management page will be displayed.
3. The event code in the top left is generated and allows singers to join your event.
4. The current number of singers in the queue is displayed on the left hand side of the screen.
5. The current queue of singers is displayed on the right hand side of the screen.
6. To move to the next singer in the queue click the Next Singer button under the queue.
7. To move a singer up or down in the queue click on their name so it is highlighted then click move up/move down to adjust their order in the queue.
8. Clicking refresh queue will update the queue.

9. Clicking End Event ends your event and removes everyone from the queue.

## Mobile App

### Karaoke Manager:

#### How to Create Account (pictured below)

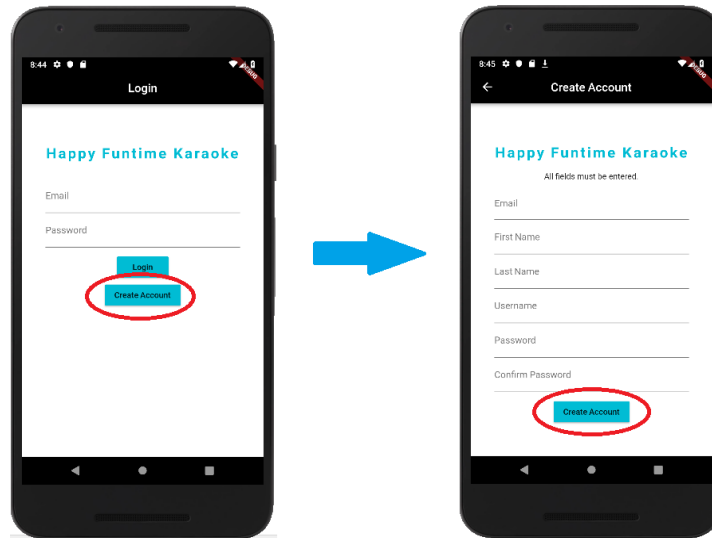

*(Note: An account must be created in order to create and manage a karaoke event. An internet connection must be established in order for an account to be created successfully)*

1. Open app
2. Press button labeled "Create Account"
3. Fill in all fields
4. Press button labeled "Create Account"

*(Note 1: The app will let you know if a field has been entered incorrectly)*

*(Note 2: The app will let you know whether or not the account creation was successful)*

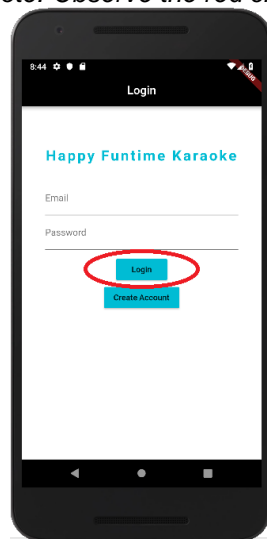

*(Note: Observe the red circles)*

#### How to Login (pictured below)

1. Open app
2. Fill in the two available fields: email and password
3. Press button labeled “Login”  
(Note: The app will let you know if the email and password do not match)

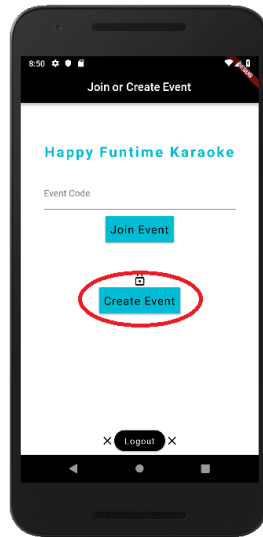

(Note: Observe the red circles)

#### How to Create an Event (pictured below)

1. Login (see “How to Login”)
2. Press button labeled “Create Event”  
(Note: If this button is greyed-out and unclickable, you must visit our website to upload a song-list first)

(Note: Observe the red circles)

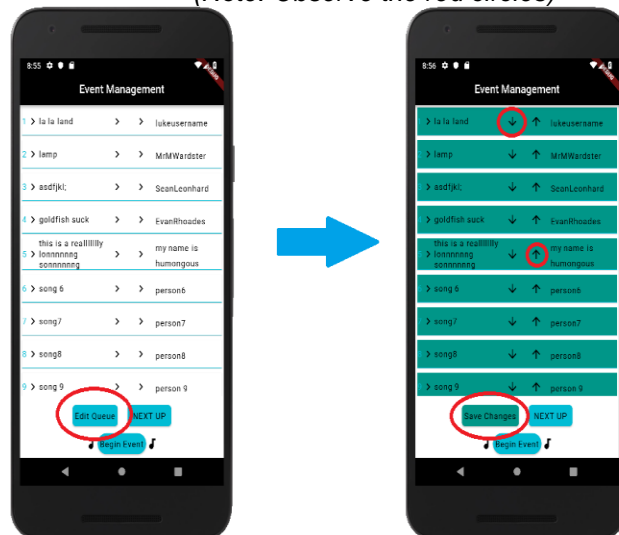

How to Manage an Event (pictured below)

1. Login (see “How to Login”)
2. Create Event (see “How to Create an Event”)

a. Edit Queue

- i. Press button labeled “Edit Queue”
- ii. Press up and/or down buttons to rotate a song up or down as desired
- iii. Press button labeled “Save Changes”

(Note: Observe the red circles)

b. Begin, NEXT UP, and Conclude (pictured below)

- i. Press button labeled “Begin Event”  
(Note: Green highlight indicates that this singer is currently singing)
- ii. When current singer is finished, press button labeled “NEXT UP”  
(Note: This removes that song from the queue, bumping the rest of the queue up one slot)
- iii. Whenever ready, the event can be concluded by pressing the button labeled “Conclude Event”  
(Note: It will then ask you if you are sure. If so, press the button labeled “Yes”. If not, press the button labeled “No”)  
(Note: Observe the red circles)

## Karaoke Participant:

### How to Create Account (pictured below)

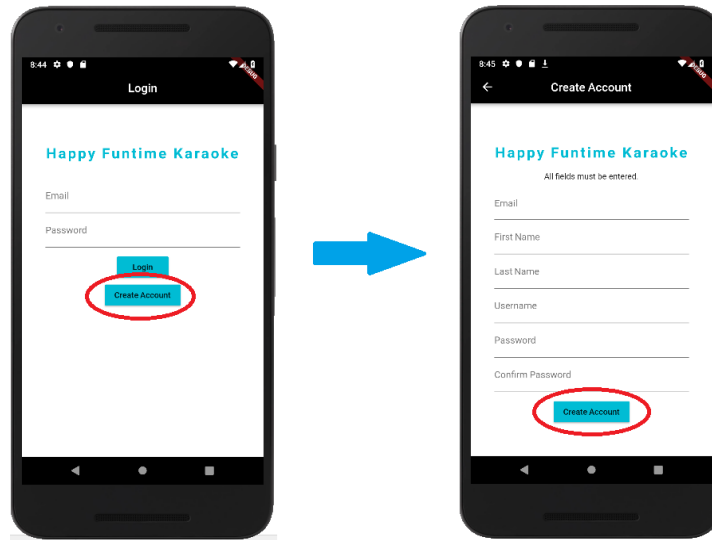

(Note: An account must be created in order to create and manage a karaoke event. An internet connection must be established in order for an account to be created successfully)

1. Open app
2. Press button labeled “Create Account”
3. Fill in all fields
4. Press button labeled “Create Account”

(Note 1: The app will let you know if a field has been entered incorrectly)

(Note 2: The app will let you know whether or not the account creation was successful)

(Note: Observe the red circles)

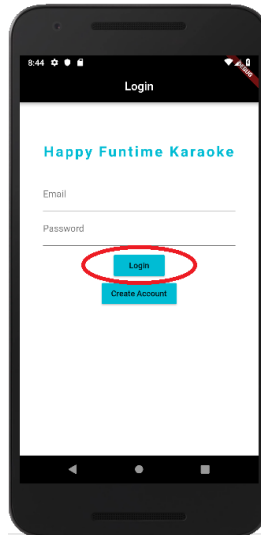

#### How to Login (pictured below)

1. Open app
2. Fill in the two available fields: email and password
3. Press button labeled “Login”

*(Note: The app will let you know if the email and password do not match)*

*(Note: Observe the red circles)*

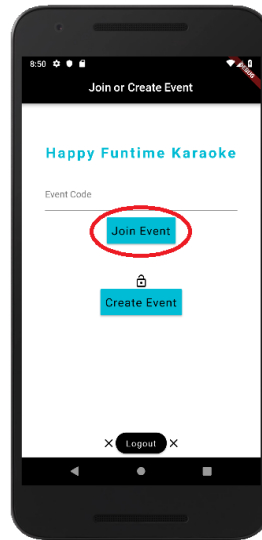

#### How to Join an Event (pictured below)

1. Login (see “How to Login”)
2. In the text field, enter the 6-digit event code given to you by the Karaoke Manager
3. Press button labeled “Join Event”

(Note: The app will let you know if the Event Code is invalid)

(Note: Observe the red circles)

### How to Select a Song (pictured below)

(Note: There are two methods for selecting a song: searching and browsing)

- a. Browsing
  - i. Scroll up and/or down through the songlist until you find the desired song.
  - ii. Press the button labeled “Select” positioned to the right of the desired song.
- b. Searching
  - i. Tap the search button at the top of the screen.
  - ii. Type in the word or words you would like to search.
  - iii. Scroll through the results for the desired song.

(Note: Observe the red circles)
